SUMMARY

Computer Engineering student at the University of Turkish Aeronautical Association and hands-on experience in artificial intelligence, machine learning, Contributed to UAV navigation systems with Team AVIS and co-founded the Huawei Student Developers Club, leading multiple tech initiatives.

WORK EXPERIENCE

Internship, Tahsilist Yazılım A.Ş.

2023 Jul - 2023 Sep

- Executing commands on a remote server with Jenkins
- Monitoring Jenkins build logs using ELK Stack
- Using Kibana to visualize data
- Creating API's with using Node.js and Express

Internship, HST Mobil Ödeme Sistemleri

2024 Jul - 2024 Aug

- Dataset cleaning and processing
- Handling imbalanced datasets with libraries and hand solutions
- Data visualizations
- Using different ML models

Software Developer, TEAM AVIS

2022 Oct - 2024 Jan

- Autonomous navigation, mapping and simulation without GNSS support
- Designing path planning algorithms to perform autonomous flight and object avoidance

EDUCATION

Bachelor of Science in Computer Engineering

Sep 2020 - Jun 2025

University of Turkish Aeronautical Association

- Ranked first in Engineering Faculty(3.60 GPA).
- Co-founder of Huawei Students Club THKU and took part in IEEE THKU.
- Senior project on "AI-Powered Multi-Disease Detection".

Vefa Highschool

Sep 2014 - Jun 2018

- Studied in Math and Science

ADDITIONAL INFORMATION

- **Technical Skills:** Artificial Intelligence, Machine Learning, Linux, Cybersecurity
- **Languages:** English - C1, Turkish - Native
- **Certifications:** IELTS Academic(Band Score-7.5), CISCO Introduction to Cybersecurity, Python and Tensorflow for Data Science (BTK Akademi), ASELSAN Is Hayati 101 Programme
